"This Is The Pace That Kills" Says George Of U. S. Methods

With Lloyd George enroute to St. Louis, Oct. 19.—Two weeks of American "campaigning" have done more to undermining the health of David Lloyd George than all the nerve-shattering, health-racking years of the war, and the multiplied problems of the reconstruction period. Lloyd George says so himself. "This," he said, "is the pace that kills." "No wonder your public men die if they must undergo this sort of thing as I am told they must."

FEDERAL AGENTS TRAP GIGANTIC BEER SYNDICATE

New York, Oct. 19.—Drastic action was today promised by United States District Attorney Hayward, following the arrest of 11 men in a gigantic brewery conspiracy to secure protection from prohibition agents.

A daring attempt to flood New York with New Jersey beer started with a one million dollar bribe fund put up by New Jersey brewers. The brewery, according to Hayward had protection not only from the law but also from rival breweries in Pennsylvania who had been attempting to cut in on the New York business.

The arrest of the 11 men in a hotel where they had intended to meet federal agents to pay the protection money followed close on the heels of bootlegging injunctions against 54 New York saloons by Hayward, who estimates there are 2,000 saloons in New York openly selling booze across the border.

HOME COMING CROWD TAXES VILLAGE AT STATE COLLEGE, PA.

State College, Oct. 19.—The vanguard of a crowd of 5000 alumni and former students of the Pennsylvania State College arrived this afternoon for the annual Alumni Homecoming Day celebration tomorrow. Over 15,000 visitors are expected by noon tomorrow when the program will be in full swing. The State-Navy football game is the big drawing card for the crowd such as never before experienced by this little Centre county town.

Unless Coach Beadeck changes his plans at the last moment, 3 new faces will be seen in the blue and white lineup tomorrow. Whitey McCann is due to start at left tackle in place of Schuster; Charley Light will be at fullback in place of Ventz; and Ed Buckley will replace Johnston at right half. The latter was injured in scrimmage this week and will hardly be able to play against the Navy. He is one of Beadeck's best backs.

The alumni reunion will reach its climax at a gathering Saturday night in the armory where 300 pounds of pretzels and 300 gallons of cider will help entertain the 2000 alumni who stay over for the full program.

The first standard production poultry show ever held in Pennsylvania is under full swing here today under the auspices of the student poultry club and the poultry department of the college. Hundreds of prize winning birds are on exhibition and scores of poultrymen from all over the state are here to see it, many of them entries. The judging and prize awards will be completed by evening.

There are several other agricultural exhibits and all departments of the engineering school are prepared to entertain visitors tomorrow morning with special exhibits.

Six members of the State Constabulary arrived today to assist college and town officials in handling the crowd tomorrow which will pour in from every section of the state. It will be almost entirely an automobile crowd. Room reservations in hotels within forty miles of State College have been made for weeks in advance and every local rooming house will be filled to capacity.

BANDITS OPERATE IN CENTRAL PHILA. FOR \$25,000 HAIL

Philadelphia, Pa., Oct. 19.—Four bandits looted the pawn shop of Kennedy Brothers in the heart of the city of \$25,000 in cash and jewelry today, according to the police.

Shortly after the pawn shop opened, the bandits rushed in and covered the clerk with revolvers. The clerk was bound and gagged. Working hurriedly the robbers forced open two heavy safes, taking the jewelry and all cash that had been taken during business hours yesterday.

The bandits fled in a waiting automobile.

GIRL FLIES 98 LAPS ESTABLISH NEW RECORD

Paris, Oct. 18.—Madame Adrienne Bolland, French aviatrix, today established a record by looping the loop 98 times within a period of 58 minutes this including the time necessary for ascending and descending. A leak in the gasoline tank of the plane prevented her continuing.

Madame Bolland created a sensation in South America in April, 1921, when she flew over the Andes Mountains.

Miss Monette Meyers, of St. Louis, Mo., is the guest of Mrs. A. O. Leinhop for a few days.

SENTENCED

Alexander Kels, convicted murderer, is sentenced to die for the murder "of himself." He is alleged to have killed a "ragged stranger" and then made it appear he himself had been murdered.

ARREST OF SAXON CABINET SAID TO BE NEXT SCHEDULE

Dresden, Oct. 19.—Orders for the arrest of the Saxon cabinet were in the hands of the Federal Military today, a Government official said he was reliably informed. Inflamable speeches and organizations of illegal communists military groups were said to be the charges against the Saxon officials.

COOLIDGE TO BECOME MEMBER OF CHURCH

Springfield, Mass., Oct. 18.—Calvin Coolidge, President of the United States, will join the church the first Sunday in November. A telegram was received tonight by the Rev. Dr. James Noble Pierce, Mr. Coolidge's pastor, signed by the assistant pastor of the First Congregational Church of Washington, stating that at a Congregational meeting tonight, Mr. Coolidge's application for membership, which he recently made, was accepted and to the present through a regular attendant, Mr. Coolidge has never been a member of any church.

The home of Mr. and Mrs. Blake Hubler was the scene of a pretty masquerade surprise party last evening in honor of Blake's twenty-eighth birthday. Miss Frier's violin music was a feature. It was a very happy occasion, Mr. Hubler proving a delightful host.

Aim to Reclaim Land

First meeting of the Fact Finding Committee appointed by Secretary of Interior Work to investigate the present system of reclaiming arid lands. Left to right: Secretary Work; Dr. John A. Whitmer, former president of State University of Utah; Oscar E. Baughman, president, American Farm Bureau Federation; Hon. James Garfield, former secretary of the Interior; Hon. Clyde Dawson, attorney; Julius Barnes, president, U. S. Chamber of Commerce, a member, was not present.

Lakes-To-Sea Boosters Meet At Clarion To Decide On Way To Put Highway On The Maps

Pursuant to a call issued by President George Whitmer, of Clarion, president of the Lakes-to-the-Sea Highway Association, close to 100 good road enthusiasts gathered at Clarion yesterday and discussed ways and means of adequately advertising the scenic beauty and utility of the new highway that is rapidly approaching completion. The call was put forth by Mr. Whitmer in compliance with a request that was made following a meeting held at Phillipsburg several weeks ago.

A majority of the towns along the highway were represented, there being delegates present from Clearfield, Charlestown, DuBois, Reynoldsville, Brockville, Clarion, Oil City and other communities. The meeting took place at the Clarion House, and following the enjoyment of a fine luncheon at 1 o'clock the assembly was called to order by Mr. Whitmer, who explained the purpose of the meeting and then called upon a number of people present for remarks. The consensus of opinion was that the Lakes-to-the-Sea Highway was one of the best highways in the country, and that no grander scenery could be viewed anywhere in America than right along the new highway from Erie to Tyrone. Everyone voiced the opinion that every effort should be made, so that tourists could get to know it. It was also brought out by one of the speakers that statistics resulting from the traffic census taken during the past summer showed the Lakes-to-the-Sea Highway very popular with tourists, the travel between Tyrone and Erie being fully as heavy as between Jermersville and Chambersburg on the Lincoln Highway. It was also predicted that the Lakes-to-the-Sea and the William Penn Highways would be the two thoroughfares largely used by tourists in the future when passing across Pennsylvania.

The first speaker called upon by Mr. Whitmer was Walter Hatten, of DuBois. Mr. Hatten spoke briefly, declaring that it was a pleasure to see so many present and voiced his appreciation of the efforts that resulted in such a meeting.

Theo Wilson, of Clarion, then read a communication from Commissioner Paul D. Wright, in which the head of the highway department stated that the department had taken up the proposition of marking the historic points along the highway. Judge Wilson pointed out that the income

from motor charges in the state would be 17,000,000, providing all carrying charges for the proposed bond issue, in addition to creating a sinking fund.

The judge advised the appointment of a committee to co-operate with the state department in the marking of the highway.

J. D. Connolly, of the Clearfield Progress, was called upon and told some facts compiled by the state department regarding traffic, as given above. He also said that the newspapers of the territory would co-operate to the limit in advertising the highway.

Prof. Green, principal of the Clarion State Normal, told of the great scenic beauty of the Lakes-to-the-Sea highway, detailing a trip he had taken by motor, and claiming that the scenery along the local route is the best he had seen anywhere. He also stated that undoubtedly the building of the Lakes-to-the-Sea Highway saved the Clarion Normal for Clarion.

Dr. J. Paul Frantz, of Clearfield, is a strong advocate of the highway. He stated that while the department is marking the highway, it is not very accurate. He cited an instance where there is a marker in Clearfield designating the Susquehanna river. As a matter of fact it is a branch of the Susquehanna that flows through there. The marker is also very inconspicuous and would not be seen by the average motorist. He strongly urged a more complete and comprehensive marking of the highway.

A motion was then passed that the chair be empowered to appoint committees to co-operate with the state department in marking the Lakes-to-the-Sea Highway and also to take up the proposition of having trees planted along the route.

The forthcoming bond issue had been touched upon to some extent by various speakers and at this point Charles McDonald, of DuBois, moved that the Association go on record as favorable to the passage of the bond issue. The motion was unanimously adopted.

This finished business before the main body and an adjournment was taken.

Following the general meeting President Whitmer appointed the committees authorized, the following being named:

Press Committee—N. C. Ball, Clarion Republican; J. D. Connolly, Clearfield Progress; Charles Lord, Reynoldsville Star; Dan Palmer, Brockville American; W. D. Ross, DuBois Courier.

Executive Committee—L. D. McDowell, Philip Reed, Clearfield; John Reed, George W. Stokes, Reynoldsville; L. A. Leathers, Lee B. Humphreys, Brockville; H. A. Moore, J. E. Osborn, DuBois; H. B. Scott, Ward Fleming, Phillipsburg; R. L. Snyder, J. M. McLaughlin, Shippensburg; R. H. Thompson, C. B. Gardner, Osceola; John Miller, Mr. Crier, Tyrone; F. J. Dyer, John Irvin, Clearfield; S. T. McClure, J. C. Knepp Woodland; Dr. J. Curren, John F. Rafferty; Gramplan; F. J. Moffat, Theo Wilson, Clarion.

The cities of Franklin, Oil City and Cambridge Springs will be asked to name representatives on this committee. To this committee is delegated the task of working out a comprehensive plan of making the highway and will also be entrusted with working out the financial plans. In this connection it is the belief of many who have been through the mill that it will require at least \$5,000 to finance properly the project of advertising the great scenic route.

Judge Wilson, of Clarion was named as the chairman of the tree planting proposition with full power of selecting his committee.

The Clearfield delegation was made up of Dr. J. Paul Frantz, W. H. Wilson, A. B. Reed, J. D. Connolly, Philip Reed, L. A. McDowell, Frank Pass, E. T. J. McGarry, Curwensville was represented by F. J. Dyer, Paul Robinson, C. J. Bloom, G. L. Whitaker.

The County Commissioners have begun the work of repaving the approaches to the Market street bridge. The present iron fence will be removed and a safe barrier erected to take its place, while the concrete sidewalk approaches will be cut down to grade and put in proper shape for travel. It will be a much needed improvement.

A PRICE ERROR

In yesterday's issue in Brown's Boot Shop ad, first panel a "Men's Dress Shoe" was advertised at \$2.65. The proper price is \$3.95 a standard price with Brown's.

30 Governors In Convention Call On Federal Government To Aid In Enforcement Of The Volstead Law

West Baden, Ind., Oct. 19.—Following heated debate the Governors of thirty states attending their annual conference here today signed a memorial calling on the Government to aid in enforcing the prohibition laws. In turn they promised the assistance of their states.

The memorial was a compromise of an earlier resolution expressing sympathy with the Volstead act.

A Ford for President sentiment has not crystallized sufficiently for voters to give serious consideration to the automobile manufacturer's proposed candidacy, according to the majority opinion of the Governors.

4 Die In Molten Metal When Ladle Breaks In Farrel Mill

Farrel Pa., Oct. 19.—Four steel workers are dead as a result of a ladle of molten metal upsetting in the open hearth department of the Carnegie Company here last night.

The steel table joining the ladle broke and the men were enveloped in tons of molten metal.

John Hooper, aged 30 of Sharon; Robert Phillips, aged 17 of Wheeling; Clayton Fisher, aged 22 of Shamsville, all of whom died during the night.

RIDGWAY WILL BE THE ATTRACTION HERE TOMORROW

Clearfield High School football team opposes the strong Ridgway team here Saturday and reports from Ridgway indicate that the upstate eleven will enter the game in midseason form. Coach Reed has instituted an entire new line of plays with which he expects the local gridiron to overcome the visitors.

Clearfield concluded a week of stiff practice with a short scrimmage Thursday night in which the varsity marched roughshod over the second team; a short signal drill will be held Friday afternoon which will be followed by a chalk talk. Coaches Reed and Steele are well pleased over the progress of the squad and state that Clearfield will enter the fray in fine shape.

Clearfield lineup for Saturday will be: Mohny and Davis, ends; Thurston and Lambert, tackles; Rafferty and McClure, guards with Mann at the midposition; Barnie, Mitchell, Morris and Wilson will commence in the backfield, while Dale, Johnston, Hughes, Witherow and Brickly will be available.

All the team needs now is your support so give the fellows the chance, they are entitled to. Show your appreciation by attending the game Saturday.

POPULAR LOCAL YOUNG PEOPLE WED

John Kenneth Duffon and Miss Margaret Catherine Betts, a couple of Clearfield's most popular young people, were united in marriage at the First Presbyterian church in Philadelphia at high noon on Thursday, October 18, 1923. The ceremony was performed by the pastor, the Rev. Dr. McCall.

The groom is the son of Mr. and Mrs. W. J. Duffon and a member of the Duffon Hardware Company. He is one of Clearfield's most progressive and successful young business men. His wife is the charming and highly accomplished daughter of Mrs. F. G. Betts, of South Second street, exceptionally well fitted for her new station in life.

After a honeymoon tour of eastern and southern points of interest Mr. and Mrs. Duffon will be at home to their friends in their handsome new home on West Third Avenue.

10-DAY SILENCE BRINGS DIVORCE

New York, Oct. 18.—Because her husband George A. Morrison, refused to talk to her for 10 days, Mrs. Barbara Morrison has asked Vice Chancellor Griffith in the Jersey City Chancery Court to grant her a divorce. She asserts this attitude drove her from their home and charges him with constructive desertion.

After returning to him once more her petition says, he resumed the old tactics of not holding conversation with her, and she left.

Mrs. Albert Hubler and daughter Ethel May and Mrs. Michael Flanagan and son Junior are visiting at the home of Mr. and Mrs. Wm. Snyder at Phillipsburg.

Premature Celebration Of Hallow'en Will Be Stopped By The Police

Many boys and some young men are making the evening hideous and the lives of residents of various sections of the town a nightmare these evenings with their premature celebration or alleged celebration of hallow'en, they having been throwing decayed vegetables and dirt of all kinds against houses, windows and porches and making themselves a nuisance of a nuisance that complaints have poured in upon the Burgess police department to such an extent that Burgess Kittelberger has been forced to put four plain clothes men on duty; one for each block who have been authorized to arrest any boy who indulges in what he considers hallow'en fun even two weeks ahead of the day for such celebration.

This will include the ringing of doorbells, throwing of decayed vegetables, dirt, screenings and other offensive matter against houses and on porches and the silly senseless smearing of soap over show windows and automobiles.

There is no sense or reason in such actions and while Burgess Kittelberger feels like giving the boys some liberties on the regular hallow'en night, he is determined to break up the practice complained of to him by so many of our citizens.

Parents should caution their children against such carryings on and here are mentioned. A word to Johnny now may save a trip to the lock-up to identify and bail him out of the law's clutches.

CIERKE AND CARRIERS MEET

The United Association of Clerks and carriers of the Clearfield Post Office met last evening at the home of H. P. Mohr to hold a social and together meeting. Talks were made by Postmaster C. E. Roseberry, Asst. Post Master Orvis Gulich, C. B. Ard and A. H. P. Mohr and others on matters relating to the improvement of the postal service for our town and bettering the conditions of its employees. The patrons of the postoffice are entitled to the best possible service that can be given and the carriers are willing and anxious to do their share and it is the aim of Postmaster Roseberry to render the best service that can be given under existing conditions.

An invitation was given by Postmaster Roseberry to hold their next meeting at his residence which was accepted unanimously. The refreshments served by Mrs. Mohr were greatly enjoyed.

Miss Lydia Fife Left Today For Home In Philadelphia After Spending The Past Week With Mrs. Grant Thompson

Miss Lydia Fife left today for her home in Philadelphia after spending the past week with Mrs. Grant Thompson.

Rev. Gibbons of Merrill street, who has been laid up for some time with sciatic rheumatism is somewhat improved.

The many friends of Rev. T. J. Taggart will be sorry to learn that he has suffered a paralytic stroke.

Zev, America's Greatest Horse Is Ill. My Own Probably Will Take Place In International Race

Belmont Park, N. Y., Oct. 19.—Lumps have broken out over the body of Zev, which was to have met Papyrus in the International Stake Race tomorrow. This information was obtained today from a personal representative of Major August Belmont.

"My Own," Admiral Gary T. Grayson's three year old is almost certain to go to the barriers and meet the English derby winner Saturday afternoon. Announcement to this effect is expected from the Jockey Club later in the day.

The sickness of a nature not yet disclosed, which attacked Zev on the eve of the greatest international horse race in years, struck suddenly Thursday. This accounts for the fact that Zev was not shown to the public yesterday or today.

HAD A WONDERFUL TIME

For Young People's Society Presbyterian church held a social evening in the church last evening as a fitting beginning to a busy winter of church work. Games were played and a general time enjoyed until near the end of the night. Mr. Thomas who was with the Community Service organization very kindly agreed to give a short ceremony and much of the evening is filled with the wonderful refreshments served by the committee. An important entertainment added to the gaiety.

Farms.

It is because of their rigorous form that the ballade and the rondeau have established themselves by the side of the sonnet; and the lyric who has learned to love them finds in their rigidity no curb on his power of self-expression. So in the kindred art of music, the sonata and the symphony are forms, each with a law of its own, yet the composer has abundant liberty within the law.—Brunner Matthews.

Overpowering Desire for Fame. We are not this day, as we were in the days of the past, when the danger of losing when one attained would be sufficient to deter a man from so vain a pursuit.—Addison.

The United States Wearing Away. An average of 95 tons of soil, pebbles, and rocks is carried by the rivers into the ocean every year from every square mile of the United States, according to the United States geological survey, department of the interior. The immensity of this contribution may be better comprehended when it is realized that the surface of the United States covers 3,658,500 square miles.

When Washington Died. George Washington drew his last breath in the last hour of the last day of the last week of the last month of the last year of a century. He died at midnight on Saturday, September 11, 1799.—Boston Post.

Glass Changes Color. Nearly every kind of glass, especially that containing iron, is liable to a change of color by the action of sunlight; but the color can be restored to its original color by heat.

For Horses
Horsemen agree that Yager's Liniment is the best and most economical liniment for general stable use. For strained ligaments, sprains, harness galls, sore shins, cold sores, cuts and any ailment, it gives quick relief. A 35c bottle contains more than the usual 50c bottle of liniment. 35c PER BOTTLE AT ALL DEALERS.
YAGER'S LINIMENT
GILBERT BROS. & CO., Baltimore, Md.

Education is great. A professional ball player and manager of baseball teams has in a few words pointed out a fundamental distinction between the educated and uneducated mind. "The college boy," he says, "on anyone with even a partly trained mind tries to find out his faults and correct them. The uneducated fellow usually tries to hide his." It is clear enough which of the two will go faster and farther.

Top Tell Them. Though awkward and inconvenient, the washbasin in the middle of the kitchen floor served its purpose as simply as the porcelain and plumbed one now.

Migration of the Rat. The rat was carried from India and Persia to England in 1337, by 1750 had made its way to France and thence spread throughout Europe.

ODDS AND ENDS AND THINGS

By J. D. C.

The fall season for forest fires is at hand, the woods in every direction, thanks to the long, long dry spell, are a veritable tinder box and it therefore behooves every body who visits the woods on any pretext or for any purpose to be very careful of fire, and especially cigar and cigarette smokers. In a trip to Clarion yesterday we saw no less than three forest fires raging fiercely. Ordinarily fall fires are not so destructive as those in the springtime, but this year on account of the long drouth fire will be doubly destructive for this time of the year. When in the woods do not smoke, but if you are a slave to tobacco and can't or don't want to curb your appetite or "vice" be careful to see that you do not throw away a lighted cigar or cigarette butt.

President John M. Thomas of the Pennsylvania State College, made public a letter that he received from Rear Admiral Henry B. Wilson, superintendent of the Naval Academy, which Doctor Thomas proclaims to be the finest bit of tribute on record to Penn State's clean playing and fine sportsmanship. The Penn State "prexy" added that he was more proud of such a letter than of any number of victories on the gridiron. The letter is as follows:

"One of the things that has impressed me about our athletics at the Naval Academy is the wide-spread feeling in the regiment of good will toward Penn State, this in spite of the fact that on most of our schedules the Penn State name means the hardest game. During my time at the academy I have wondered about this, and the game in Washington on November 3 has cemented the belief that I have found the answer.

"The midshipmen like Penn State, because, not only will the result of the game be in doubt until it is over, but also they know that Penn State will fight hard and will fight clean in all forms of sport in which the two colleges meet. That seems to be Penn State's reputation—that they always fight but they fight clean. This was exemplified in the recent game, when the two lines played each other to a virtual standstill, which meant the roughest sort of going, and yet the contest left only the finest sort of feeling of good sportsmanship.

"I hope that in the years to come the relations between these two colleges may always continue as friendly as they are now."

Word has been received from Naval athletic officials that a Penn State-Navy game at State College next fall is practically assured.

If They're Good Things. The man who is willing to talk things as they come frequently finds that someone else has headed them off.—Boston Transcript.

Made Gardener Barber.

A barber in a certain English regiment had a great contempt for infantry of any kind, and was also somewhat impatient. A sergeant explained to him that he could get no man to undertake the duty of barber to the company. "Is there no gardener in the company?" asked the major. "See if you can find one, and send him to me." The man was duly sent but on receiving orders to act as barber, ventured to expostulate. "Why?" cried the major. "If you can't cut grass you can cut hair! Go on and do it!"

French Revolutionary Calendar.

The convention of the French revolution abolished the ordinary calendar and established a new one, beginning about the autumnal equinox, with descriptive names for the months. The present time of year was under that arrangement the last month of the year. It extended from August 19 to September 18 and was called Fructidor (fruit).

The Future.

The future of poetry is immense, because in poetry where it is worthy of its high destinies, our race, as time goes on, will find an ever surer stay.—Matthew Arnold.

Dangerous Liquids.

Gasoline, ether and benzine could not be kept on shelves in a cabinet in the house, the national board of fire underwriters says in a recent article. It is exceedingly dangerous, as either gasoline or benzine gives off at ordinary temperature inflammable vapor. Through these vapors, a light at a distance may ignite the liquid. If there is a small leak in the container in which any of the liquids are kept, sufficient vapor may form to cause a violent explosion. With ether the danger is even greater than with gasoline or benzine.

Literary Realism.

Robert Brooke, exposing the folly of those complaining that the Elizabethan drama is coarse, remarked: "Their wall that its realism is mingled with Indecency is more than three repeated. True literary realism, they think, is a fearless reproduction of what real living men say when there is a clergyman in the room."—Boston Herald.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 percent common kerosene (coal oil).

The inventor, S. E. Johnson, 642 N. Broad St., Philadelphia, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

A Bit Late.

One can but sympathize with the commercial traveler, who, not knowing that the railwaymen were on strike, spent two days on the platform, at the end of which time he became somewhat irritated and remarked to a friend, "She's a bit late, isn't she, Herbert?"—London Punch.

Every Drop Of Our Is Absolutely Pure

There isn't a drop of milk goes out of this plant to your table or to your favorite fountain but what goes thru the pasteurization process. This pasteurization process does away with any possibility of disease germs being in the milk and it further makes the milk as pure as the driven snow.

Come into the plant some time and see the milk go thru the process and then you will understand just what we mean when we say that you are protected in every way when you use our milk.

Give the kiddies plenty of our pasteurized milk.

Clearfield Dairy Co.

Favors For Halloween

Create the proper atmosphere for that Halloween dinner, dance or frolic with appropriate favors and decorations from this store. We make a specialty of supplying your needs for this occasion at prices that are moderate.

Individual Nut Bowls, Crack Favors, Place Cards, Costume Decorations, Black Cats, Black Witches, Crepe Paper Decorations, Costumes Made of Cambric, Dennison Ideas for Costumes, Masks, False Faces, Horns, Rattles, Rasps, Witch Lamp Shades. Hundreds of other things to make your Halloween Party a real success.

TERMS OF SUBSCRIPTION BY MAIL
One Year, \$4.00 Three Months, \$1.50
Six Months, \$2.00 One Month, \$0.50
By check or money order payable to Carrier.

Entered as Second Class Matter, October 19, 1922, at Clearfield, Pa., as second class mail matter.

The Following is From The Altoona Tribune:
WHY THE FARMER RAGES

It costs \$1.20 to \$2.80 to produce a ton of bituminous coal, and \$1.23 to produce a bushel of wheat. The coal sells at the mines for about \$5.00 a ton. The wheat sells at the farms for about 85 cents a bushel.

It is just such stuff as this that explains why the average man, not conversant with general business, sees red at such a parading of misstatement.

The man who wrote that statement could buy the entire coal output of this country today at a figure one-half of what he says is the price at the mine and, if he does not know that, he should.

Samuel M. Vaulain, president of the Baldwin Locomotive Works, is under contract with a physician to keep him in physically perfect condition. Mr. Vaulain said he went to the physician and said:

"I've been sick, and I haven't liked it. I don't want it to happen again, if it's possible to prevent it. Is it possible?"

"I believe it is," the physician replied.

"Very well, then," Mr. Vaulain said, "I'll make a contract with you. Keep me well for ten years and I'll pay you a fat sum every year, the amount to be increased each year on the assumption that the older I grow the more difficult it will be for you to keep me well."

Entirely in Doctor's Hands.

"On my side I will agree to do everything as you wish, following any diet you may prescribe, work as many hours as you say, refrain from work when you advise—I'll put myself entirely in your hands for ten years. But if I fall sick you must pay a penalty. I shall make deductions from your annual retainer, according to the length of time I am sick. Will you enter into such an agreement with me?"

"A real contract?" he inquired.

"A real contract," Mr. Vaulain replied, "in legal form binding and actionable at law."

He thought for a moment. Then he nodded his acceptance.

"Since the inception of this contract," Mr. Vaulain said, "I have kept my part of it and my doctor has kept his. Except once or twice. I have been examined not less than every two weeks and have guided myself entirely by the doctor's instructions. In that time I have not lost a day from business nor have I been ill in any way. I am heavier, stronger and more active than I was five years ago."

Urges Others to Follow System.

Being under a doctor's care has not been a hardship, according to Mr. Vaulain. He has been warned against excess with regard to certain foods, but he has not been placed on a diet, nor has he been forbidden to smoke, nor must he retire at any unusually early hour.

Mr. Vaulain thinks the family physician should be consulted before illness, not afterward.

"I can imagine no happier arrangement," he said, "than one that would place, say twenty-five or thirty families under the care of a physician to whom each of them would pay annual fee in return for systematic and regular medical attention. The physicians would visit each family once a month. He would examine its members, prescribe for them, if necessary, and advise them how to preserve their health."

"What I am doing may be unusual," he said, "but I consider it sensible and logical. It is nothing more than utilizing in the care of my body the same principles that I have been using for years in the care of my business."

Progress Editorial For Women

YOUR ATTENTION—HOW

DOES IT WORK?

By FLORENCE DAVIES

The arch of the bridge framed a beautiful autumn picture as the little party in the touring car drove through. Scarlet and bronze leaves, graceful boughs swaying a bit in the sunshine, green grass below and blue sky above made the landscape one to remember.

"They let all my pepper freeze. If I'd been there I'd have covered them. Now I'll have to go without pepper hash all winter or pay a big price at the store," one of the two women on the back seat was lamenting.

"See, you can get a glimpse of the lake from here," her sister cried. The woman from the little inland town turned her head a fraction of an inch. "O yes. Say, did you see any corn last year? I shan't be home in time to do any, I'm afraid of tomatoes."

"This park was all one great estate, 300 acres, and was given to the city by the owner," commented the other, as they turned into the boulevard edging the lake. "Those willows are so beautiful. See."

"You haven't found out yet about the train. And there's my trunk. What? O yes, 300 acres is a big park isn't it. I guess you better telephone when we get back, don't you think?"

"Of course, promised the hostess, sister. She said no more about the beauty all around them as the car sped on. What was the use, when the eyes of Ellen's mind were turned inward?

Yet she knew that the drive in the sweet autumn air past the beautiful homes and gardens lining the boulevard, was a real treat to the stay-at-home, small town Ellen. Perhaps, somehow, the charm of it all which she herself felt so keenly, was registering on the "subconscious ninth sense" which makes up such a large portion of our minds.

The pit of it was that Ellen had centered her attention on her marketing and canning, her vegetable garden, the piled mending basket in the old sitting room and the cook's board.

WE CARE

The public at large is not half as particular as we are in the matter of filling prescriptions. We know that our Drugs are both pure and of standard strength. We take no chance whatever, and never hesitate to pay the cost of making sure—Bring your prescriptions here

in the kitchen cupboard so long, that on this first visit to the big city there was scarcely any sight or sound vivid enough to hold it for more than a few seconds.

It gets dull and bear-eyed, that same little faculty of attention. It becomes flighty and dodges off at the instant when it should be alert and attending to business. Let's polish it up and tell it to look alive, like a quick-moving little bell hop in bright buttons, instead of a decrepit messenger "boy" with shuffling feet and ragged gray whiskers. We can do it.

meaning of Natal. The British colony of Natal is so named, because the territory was first discovered on Christmas day—the natal or birthday of our Savior—in the year 1407. The discoverer was Vasco de Gama, the Portuguese navigator who had been dispatched by Manuel, king of Portugal, to discover a route to India via the Cape of Good Hope. It was just after the finding of the New world had enriched Spain, and all the maritime nations were eagerly anxious to make similar discoveries.

Your Wife Deserves Her New Home

You have often dreamed of the time when you could give it to her.

Why not start a Building Fund today thru an interest-bearing savings account?

With this definite goal the game of Saving becomes real joy.

Ask HER to get in the game with you.

Today is the time to start and this Bank the place.

CLEARFIELD TRUST CO.

Curwensville's Own Column

Mr. A. M. Stine has sold out his lumber interests out on the Sabu to his partners Messrs A. Z. Wolf and O. C. Norris. He has purchased the timber on a tract of land near Stronach and has moved his mill and machinery to that section.

Potatoes are an unusually abundant crop in this end of the county, selling in Curwensville from wagons at \$1.00 per bushel.

Mr. and Mrs. John Baron, of Buffalo, are guests in the home of Mr. and Mrs. DiPalma. Mrs. Baron is youngest sister of Mrs. DiPalma.

The Spencer store will soon add another department, by making a sales room in room formerly occupied by Wm. Hile.

Six of the double dwelling houses being erected by the Dell tannery people are now under roof and will be completed within the next two weeks. The two other houses are well along and by the end of the week will be safe from wind and storm.

Ed McLaughlin, who has filled the position of shipping clerk at the Penna H. & L. Company for some fifteen years, has resigned and has accepted a position in the McLaughlin furniture store.

The picture entitled, "The Swamp" featuring Sessun Hayakawa, the Japanese star, will be shown at the Strand Theatre, Tuesday evening, October 23rd for the benefit of the Ladies Auxiliary of the American Legion. The proceeds of which will be used for the Tablet Fund. Don't forget the date.

Thought 3 Little Children Needed Mother's Care

My stomach suffering was so severe that I could not have lasted much longer. I did not care so much for myself but did not want to leave my three little children who needed a mother's love and care. A cousin in California wrote me about MARY'S Wonderful Remedy and I took a course of it. I have since been entirely well. It is a simple, harmless preparation that removes the catarrh from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince of money refunded. At all drug stores.

Beltless Dress

The beltless dress that is ever so slightly molded to one's figure is the newest dress of all. Sketched in an attractive model with a clever way of joining blouse and skirt and the fashionable square peckling that is most becoming.

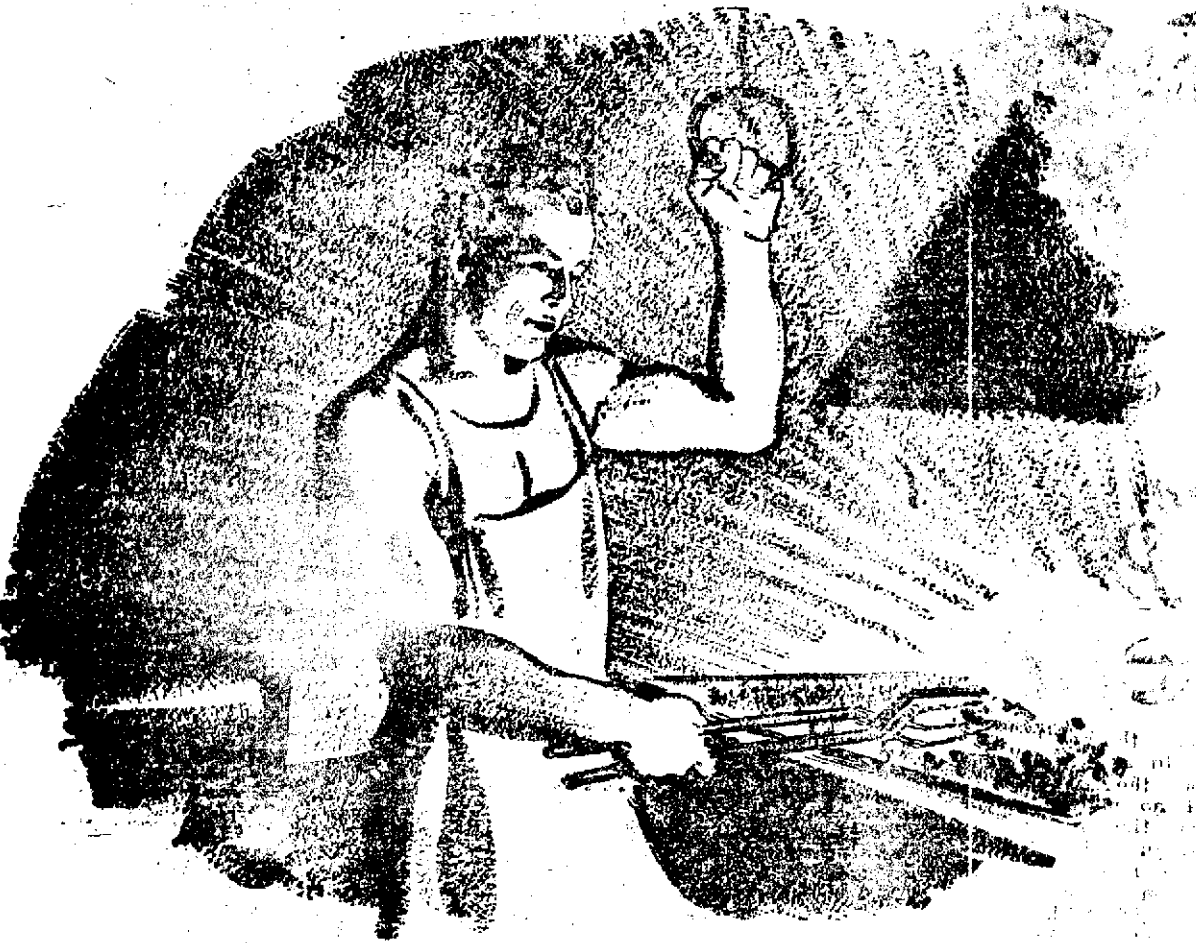

THE OLD HOME TOWN

by Stanley

Read Bible and Shakespeare. There is only one safe rule about the study of English, and that is to read those who knew how to write it best. It is not uncommon for mothers to remark that they can tell instantly with whom their children have been associating, merely by their language. Constant association with the Bible and Shakespeare is the best rule. No substitutes better than these have yet been given to us.

Explaining Earth's Attraction. All bodies fall to the ground in consequence of the power of the earth's attraction on each of its particles: everything else being equal or the same, all bodies great and small, light and heavy, ought to fall with equal rapidity. The fact that a stone falls more rapidly than a feather is due solely to the unequal resistance opposed by the air to the descent of these bodies. In a vacuum all bodies fall with equal rapidity.

Even a Blacksmith has tools for every purpose. How much more an office worker needs them. You can have six different platen rollers with the

L.C. Smith

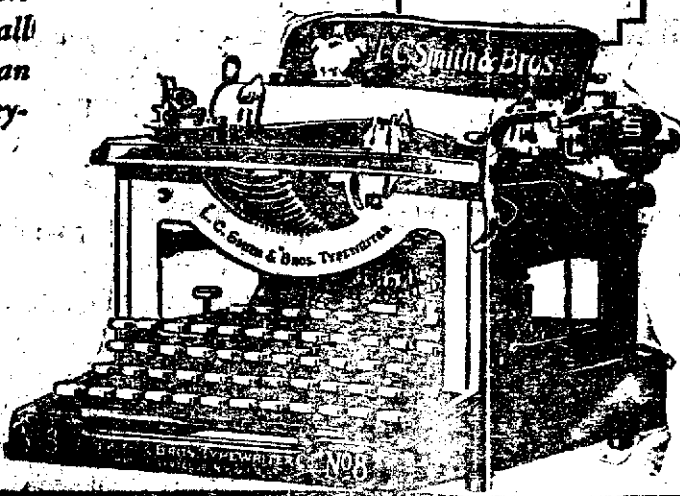

THE BALL-BEARING TYPEWRITER

THERE is the "regular" roller, in three degrees of hardness for correspondence and ordinary manifold; the card roller, for mailing list and library work; the special roller for label writing—and a roller for speedily writing at the extreme edge of cards. With this specialized adaptability to each type of office work, and its complete equipment of ball-bearings at every important frictional point, no wonder the L.C. Smith literally eats up the day's work without tiring the typist's nerves and muscles.

Executives and stenographers are invited to telephone or call for a demonstration and an interesting booklet, "The Greyhound of the Office".

(A) PUBLIC NOTICES

LODGE NOTICES

The American Legion Auxiliary will hold a Bridge and Five Hundred game at the Legion Room, on Thursday evening, October 18th, at eight o'clock. Everyone welcome. Admission 50 cents. 10-16-4-ch.

LOST

Between Market St. School and Ward's Drug Store, Black White Glenglass dress with all-emb trim. Return to Mrs. Leonard Pollock Apt. 2, and receive reward 10-19-23.

Unusual Preservative

Peas of the fern plant, which are almost everywhere, are excellent preservatives for packing food, and even meat. Peas are packed in turn leaves and are fresh in the refrigerator when they were first put in the water.

Peas in Flashlight

The best light in a kitchen is a small peas flashlight kept in a corner of the kitchen for use when it is necessary to go into the dark cellar to get something in any of the other drawers, which are in every house. To use, place a candle and peas in a glass jar and the light can be turned on and off at will.

Regular Prize Winner

My wife and I were thoroughbred breeders by a scientific distinction. I became a regular prize winner at every show to which I went. I only mention this because I am now a regular prize winner in the "cream" of the prize of education merely by the use of a few character building exercises above character building exercises.

What's a Feller to Do?

It's a funny thing, observed the philosopher, "My friend Jones said he isn't married because he can't find a wife, and I can't afford a wife because I am married."

Could See Improvement

Having had a severe illness I was looking thin and tired, but during my recovery I grew fat and rosy. On my return home I met a small girl from a home who looked at me in an admiring manner and then said: "My father says you must have had a child."

RULES FOR FLAG OBSERVANCE

National Conference Codifies Regulations for Display of Respect to Colors.

Patriots of the United States at last may pay the flag of the nation full respect, without fear of violation of some phase of flag etiquette, due to the outcome of a national conference called for the purpose of codifying rules for flag observance.

Noting the dissimilitude of practices toward the flag, and the inability to make military observance coincide with that for civilians, the American Legion set out to settle all such questions and succeeded in the purpose by calling together representatives of nearly seventy organizations of various character for the promulgation of certain rules for future flag usage.

The conference was held at Continental hall in Washington. Gathered there were representatives of the army and navy, government agencies, veterans' organizations, patriotic societies, associations for welfare and organized movements for national development. These delegates represented 8,000,000 Americans. The conference was opened by an address by President Harding.

Garland W. Powell, director of the Americanism commission of the Legion, presided and named a committee which formulated a definite code, later to be adopted by the conference.

In addition to settling on the code for flag usage, plans for education in proper flag observance were formed and a program of contemplated legislation outlined, which would fix by statute certain rules for display of the national emblem. A point which will be stressed along this line will be the setting aside of June 14 as a day of appropriate ceremony and respect to the flag in every state. Another suggested measure calls for the flying of the flag from every main administrative building and at every polling place in the nation. Schools would fly the flag during school hours. If a recommendation of the committee is followed, while general laws relating to punitive measures for misuse of the flag also are urged.

The code suggested by the committee contains many suggestions for usage of the emblem, with certain "don'ts" as violations.

The flag should be displayed from sunrise to sunset, only between such hours as designated by proper authority on national and state holidays, or on historic or special occasions. The flag should always be hoisted briskly and lowered slowly and ceremoniously. When carried in procession with another flag the place of the flag of the United States is on the right, that is, the flag's own right or when there is a line of other flags, the United States flag should be in front of the center of the line.

If displayed with another flag against a wall from crossed staffs the United States flag should be on the right and its staff in front of the other flag. When flags are grouped or displayed from staffs the United States flag should be in the center or at the highest point of the group. The United States flag should fly from the peak of a balcony on which flags of states, cities or societies are flown. If such flags are hoisted the United States flag should always be raised first. No flag or emblem should be placed above or to the right of the emblem. In flying flags of two or more nations the flags should be flown from separate staffs of the same height and the flags of equal size.

A common misuse of the flag takes place when the staff projects horizontally or at an angle from window sills, balconies or front of buildings. The union of the flag should go clear to the head of the staff unless at half staff. If the emblem is displayed other than from a staff it should be hung flat. If displayed either horizontally or vertically against a wall, the union should be uppermost and to the flag's right, that is, to the observer's left. If hung from the middle of a street, as between buildings, the union should be to the north in an east and west street or to the east in a north and south street.

When the flag is used on a speaker's platform it should be displayed above and behind the speaker. It should never be used to cover the speaker's desk or to drape over the front of the platform. If used in unveiling a monument the flag should not be allowed to fall to the ground, but should be borne aloft to wave out. If used to cover a casket the flag should be placed so that the union is at the head and over the left shoulder. The flag should not be lowered into the grave nor allowed to touch the ground. The casket should be carried feet first.

If the condition of the flag is such that it is no longer fit for display it should be destroyed as a whole by burning or similar method.

The emblem should never be used as drapery, bunting being preferred for this purpose. It should never be used as a ceiling, part of a costume or uniform, embroidered on handkerchiefs or pillows, printed on envelopes, paper napkins or boxes.

Progress Want Ads. bring results.

Cute, Aren't They?

Master Edgar Prochnik, 3 (left), and his cute little sister Patricia, 2, are the children of Mr. and Mrs. Edgar C. Prochnik, charge d'affaires of the Austrian legation in Washington, D. C. Their faces are interesting.

Granada in Moonlight

Think for some moments of the vast achievement of the Moors in Spain in the long ago. Have you in your mind Granada and the Alhambra there? If so, let your spirit be awakened with the story of a lost civilization, compared to which many others of its kind seem mean? Here is a glimpse of the Alhambra in the silvery light of night. To some minds more evocative, more ghost-stirring, than the Colosseum of Rome, Henry Leach writes in Chambers' Journal.

Why Deeds Are "Canceled"

The Latin word "cancelus" means a lattice, and our word cancel means to make a lattice by drawing cross lines. Law deeds are canceled by drawing lines across them, and so "cancel" has come to hold its modern meaning, to cross out, efface.

Healthy Children, Happy and Full of Joyful Life

Do this for the kiddies if you want to keep their tender little bowels open and stop them from getting fretful and feverish.

Get an inexpensive package of good-old-fashioned vegetable

Celery King

at your druggist's today! Brew a cup of delicious tea and give to the children as directed.

You'll like it yourself, too, for it not only purifies the blood, but keeps stomach, liver and bowels in first-class shape.

Drink a cup every other night for three weeks your whole being will be filled with the joy of living. It's simply splendid.

Earnest Money.
Any sum of money paid on account to show the good faith of the buyer is known as an earnest, and is a payment recognized by English law. Typical of this is the king's shilling formerly given to soldiers on enlistment, and the similar coin given to servants in Scotland.

Better When Cut Up.
In California the farms originally were the old "Spanish land grants," usually of enormous extent. In a fashion these great holdings—validated by the American government when California came into the Union—have remained as ranches. Today the people are learning that both for taxation and production, small farms are better.

MORE GENERAL USE OF MARGARINE DESIRABLE

Whenever the subject of margarine is mentioned at one of those cozy afternoon parties at which congenial women discuss among themselves those things in which womanhood is interested a lack of correct information and divergence of opinion is at once in evidence.

One woman will pronounce with the utter finality that comes with many years of housekeeping that margarine is most satisfactory both on the table and for cooking. Another will report a preference for margarine exclusively for cooking, while another will favor it only for the table. A fourth will ask, "Who is it that uses margarine?" And so it goes.

The truth is that if more margarine was used it would be better for all concerned; for margarine is a food that carries with it its own guarantee of wholesomeness, is decidedly economical, and in addition can be used satisfactorily on the table and for every shortening purpose.

In cooking and when spread on hot toast or hot breads the modern margarine gives an excellent account of itself, and these are the tests that are supposed to try the quality of margarine to the utmost. When placed in a hot spider, margarine melts smoothly and without spatter; when spread on hot toast its color, color, appearance and taste are all that could be desired.

The origin of the diverse opinions about margarine lies in the fact that during the war many manufacturers of margarine sprang up who had little or no previous experience either with the making or marketing of margarine; with results that anyone could anticipate.

This situation has since corrected itself by a natural process of elimination. Today the industry is on a fundamentally stable basis of high quality production. The brand that has the largest sale and is most popular with women is Jellco GOOD LUCK Margarine.

If you have not personally tried Jellco GOOD LUCK in your home and discerned for yourself how advantageous it is for you to use, we suggest that you create your own beauty and give GOOD LUCK a personal trial. Advertisement.

How to tell for sure —what oil your car needs

No. 12 in the series

Perhaps you own a Nash

If you don't own a Nash, cut this out and hand it to a friend who does.

In determining the correct oil for the lubrication of Nash engines we have to consider first the operating temperatures under variable service conditions. The engines of both the four and six cylinder Nash models are of the valve-in-head, moderately high speed type and employ pump-circulated water cooling systems. The bore and stroke of the Nash Four are 3 1/4 x 5 1/2; of the Nash Six 3 1/4 x 5 1/2. These features of design, and use in passenger car service are indicative of moderate operating temperatures.

Oil circulation is by means of a force feed and splash lubricating system in the models of 1921, 1922 and 1923, the oil being forced under pressure to the main bearings. The Nash Six models of 1920, 1919 and prior years were of somewhat different design from a lubrication standpoint. Force feed to the main bearings was not employed, the lubricating system being of the splash circulating type.

With these systems reliance is placed on the thorough atomization of the oil under the splash action of the connecting rod dipper to ensure distribution of the oil to bearings not fed under pressure and to the pistons, cylinders, cams and other rotating and reciprocating parts of the engine. The oil used must lend itself to this thorough atomization and be of the highest quality and of the proper body and character to assure correct lubrication and prevent undue wear and depreciation.

To minimize or prevent "pinging" or "spark knock" which results from the

"detonation" of gases, it is important that your Nash Car be operated so as to prevent the formation of carbon deposit which aggravates this trouble. The correct oil must not only meet the lubrication requirements of the engine under all variable operating conditions both summer and winter, but must leave the minimum of carbon in deposit. This among other vital facts is carefully considered in determining the correct oil for your Nash engine.

Gargyle Mobiloil, Arctic is of proper body to meet the temperature and distribution requirements of Nash engines used on all 1921, 1922 and 1923 models and it is of the proper character to minimize carbon formation and to seal the piston rings under the high piston speeds encountered. It is recommended for both summer and winter use.

Due to differences in piston design and in the lubricating system, Gargyle Mobiloil "A" is recommended for summer lubrication of the 1920, 1919 and earlier models of the Nash Six.

To summarize: On all Nash models of 1921, 1922 and 1923, Gargyle Mobiloil Arctic should be used summer and winter; on the Nash Six Cars of 1920, 1920 and earlier models is Gargyle Mobiloil "A" should be used in summer and Gargyle Mobiloil Arctic in winter for engine lubrication. The winter recommendation applies only to climates where freezing temperatures may be experienced.

RIGHT BETTER TRUE

By Condo

"Catsup"
Catsup is a word derived from the name of an East Indian pickle. The term was first applied to the boiled spiced juice from salted mushrooms, but is now freely used for various sauces which consist of the pulp—boiled, strained and seasoned—with tomatoes, green walnuts, etc.

Dahlia Really Mexican.
There seems to be an impression that the first dahlias to be cultivated in Europe and America were single flowered forms. This is a mistake. The very first species to be described, a figured, dahlia pinnatifida, was a double with a duplex or double head. It was propagated in the royal gardens of Madrid from roots of Mexican origin and was named by the botanist Carlos Linnaeus in honor of And. Dahl, a distinguished pupil of L.

Way to Head the Cook.
Knicker—How in the name of the seven wonders of the world do you manage to hang on so long to the same cook? Boeker—That's a golf bend, and my wife and she play every day to see whose day off it is.—Houston Post.

Concentrate to Beat Worry.
"If people could only concentrate on their work as wholeheartedly as they concentrate on their worries success would be assured," said Mr. Eustace Miles in an address on "Concentration."—Fall Mail and Globe.

Third Street—Corner Locust.

Mummy Cloth.
The extraordinary durability of the ancient Egyptian mummy cloth is believed to be due to the fact that it was fastened with a vegetable glue derived from the African locust bean tree.

Woman's Feet.
According to one authority, a woman's feet should be to her body in the proportion of 14 to 100—that is, as nearly as possible, one-seventh of the total.

Icebergs.
The icebergs of the two hemispheres are entirely different in shape. The arctic bergs are irregular in form, with lofty pinnacles and glittering domes, while the antarctic ones are far more uniform.

Old, Silly Superstition.
In medieval times children whose mothers died at their birth, were known as fatal children, and an idea prevailed that they were destined to fame but also to early death.

Nothing is Secret.
For nothing is secret, that shall not be made manifest; neither anything hid, that shall not be known and come abroad.—St. Luke 8:17.

Jud Trunking.
Jud Trunking says the reason he's asking a monopoly is the way a toll-gate keeper always lets the road run down when he has it all his own way.

Where Japan Leads.
The Women's Patriotic society of Japan is probably the largest organization of its kind in the world. It has more than 1,000,000 members.

THIS IS THE IDEA, STRANGER, IN RUBBERING THIS TALKER. I'M WRITING OUT A SELF-ADMITTING MY ONLY ADMIRING MY DUNSTON PEN. IN ADDITION TO BE A SELF-FILLER IT ALSO

Jade and the Persepolis.
The word jade is a name for a green stone which is found in many parts of the world. It is a very hard stone and is used for making jewelry. The Persepolis is a city in Persia which was built by the Persians. It was a very large city and was one of the most important cities in the world at that time.

Dream of Poverty.
A man who is poor and who is always thinking of the future, will often dream of poverty. He will dream of a life of hardship and struggle, and of a future in which he will be able to support his family.

Moroccan Cures.
A man who is sick and who is always thinking of the future, will often dream of Moroccan cures. He will dream of a life of hardship and struggle, and of a future in which he will be able to support his family.

Witches in Wales.
Superstitions of the country folk of Wales are discussed in the quarterly report of Dr. Arthur Hughes, medical health officer of the county of Carmarthenshire. Despite the fact that for one telling and withcraft are prohibited under the English law, large numbers of the Welsh peasants bring their children to the witch doctors rather than to medical practitioners.

The Ill Wind.
The newly elected mayor of a county town was about to make his first speech in that city through the town hall. The townspeople had gathered there from an arch of flowers, and when he was to speak a floral crown was being hurriedly arranged by the women of the town. But the wind blew away the crown, and the mayor, with a noise at the end of the crowd, with "He well de

"This Is The Pace That Kills" Says George Of U. S. Methods

With Lloyd George enroute to St. Louis, Oct. 19.—Two weeks of American "campaigning" have done more to undermining the health of David Lloyd George than all the nerve-shattering, health-racking years of the war, and the multiplied problems of the reconstruction period. Lloyd George says so himself. "This," he said, "is the pace that kills." "No wonder your public men die if they must undergo this sort of thing as I am told they must."

FEDERAL AGENTS TRAP GIGANTIC BEER SYNDICATE

New York, Oct. 19.—Drastic action was today promised by United States District Attorney Hayward, following the arrest of 11 men in a gigantic brewery conspiracy to secure protection from prohibition agents. A daring attempt to flood New York with New Jersey beer started with a one million dollar bribe fund put up by New Jersey brewers. The brewery, according to Hayward had protection not only from the law but also from rival breweries in Pennsylvania who had been attempting to cut in on the New York business. The arrest of the 11 men in a hotel where they had intended to meet federal agents to pay the protection money followed close on the heels of bootleg injunctions against 54 New York saloons by Hayward, who estimates there are 2,000 saloons in New York openly selling booze across the border.

BANDITS OPERATE IN CENTRAL PHILA. FOR \$25,000 HAIL

Philadelphia, Pa., Oct. 19.—Four bandits looted the pawn shop of Kennedy Brothers in the heart of the city of \$25,000 in cash and jewelry today, according to the police. Shortly after the pawn shop opened, the bandits rushed in and covered the clerk with revolvers. The clerk was bound and gagged. Working hurriedly the robbers forced open two heavy safes, taking the jewelry and all cash that had been taken during business hours yesterday. The bandits fled in a waiting automobile.

GIRL FLIES 98 LAPS ESTABLISH NEW RECORD

Paris, Oct. 18.—Madame Adrienne Bolland, French aviatrix, today established a record by looping the loop 98 times within a period of 58 minutes this including the time necessary for ascending and descending. A leak in the gasoline tank of the plane prevented her continuing. Madame Bolland created a sensation in South America in April, 1921, when she flew over the Andes Mountains.

Miss Monette Meyers, of St. Louis, Mo., is the guest of Mrs. A. O. Lein for a few days.

SENTENCED

Alexander Kels, convicted murderer, is sentenced to die for the murder "of himself." He is alleged to have killed a "ragged stranger" and then made it appear he himself had been murdered.

HOME COMING CROWD TAXES VILLAGE AT STATE COLLEGE, PA.

State College, Oct. 19.—The vanguard of a crowd of 5000 alumni and former students of the Pennsylvania State College arrived this afternoon for the annual Alumni Homecoming Day celebration tomorrow. Over 15,000 visitors are expected by noon tomorrow when the program will be in full swing. The State-Navy football game is the big drawing card for the crowd such as never before experienced by this little Centre county town. Unless Coach Bezedek changes his plans at the last moment, 3 new faces will be seen in the blue and white lineup tomorrow. Whitey McCann is due to start at left tackle in place of Schuster; Charley Light will be at fullback in place of Ventz; and Ed Buckley will replace Johnston at right half. The latter was injured in scrimmage this week and will hardly be able to play against the Navy. He is one of Bezedek's best backs. The alumni reunion will reach its climax at a gathering Saturday night in the armory where 300 pounds of pretzels and 300 gallons of cider will help entertain the 2000 alumni who stay over for the full program. The first standard production poultry show ever held in Pennsylvania is under full swing here today under the auspices of the student poultry club and the poultry department of the college. Hundreds of prize winning birds are on exhibition and scores of poultrymen from all over the state are here to see it, many of their entries. The judging and prize awards will be completed by evening. There are several other agricultural exhibits and all departments of the engineering school are prepared to entertain visitors tomorrow morning with special exhibits. Six members of the State Constabulary arrived today to assist college and town officials in handling the crowd tomorrow which will pour in from every section of the state. It will be almost entirely an automobile crowd. Room reservations in hotels within forty miles of State College have been made for weeks in advance and every local rooming house will be filled to capacity.

ARREST OF SAXON CABINET SAID TO BE NEXT SCHEDULE

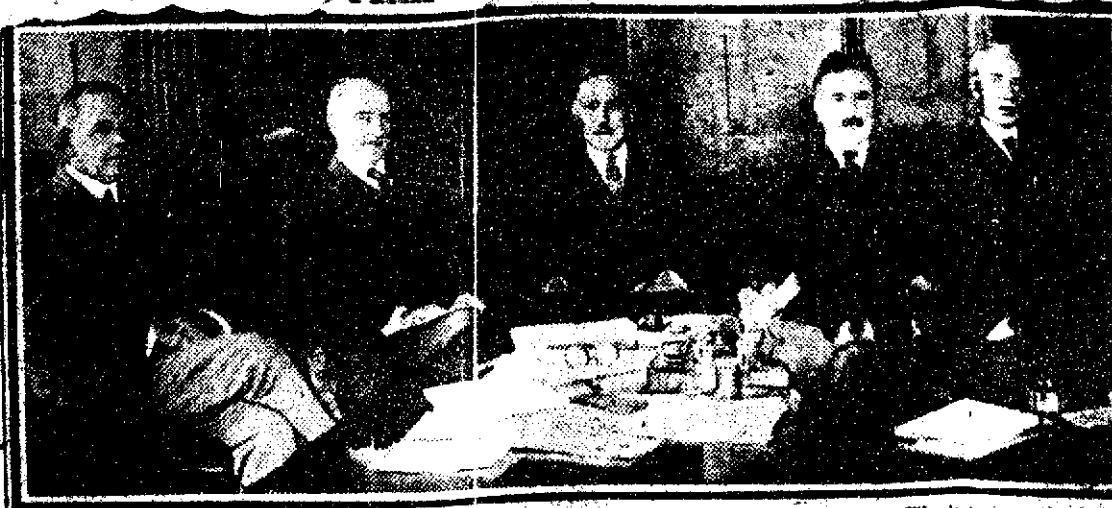

Dresden, Oct. 19.—Orders for the arrest of the Saxon cabinet were in the hands of the Federal Military today, a Government official said he was reliably informed. Inflamable speeches and organizations of illegal communists military groups were said to be the charges against the Saxon officials.

COOLIDGE TO BECOME MEMBER OF CHURCH

Springfield, Mass., Oct. 18.—Calvin Coolidge, President of the United States, will join the church the first Sunday in November. A telegram was received tonight by the Rev. Dr. James Noble Pierce, Mr. Coolidge's pastor, signed by the assistant pastor of the First Congregational Church of Washington, stating that at a Congregational meeting tonight, Mr. Coolidge's application for membership, which he recently made, was accepted and to the present through a regular attendant, Mr. Coolidge has never been a member of any church.

The home of Mr. and Mrs. Blake Hubler was the scene of a pretty masquerade surprise party last evening in honor of Blake's twenty-eighth birthday. Miss Frier's violin music was a feature. It was a very happy occasion, Mr. Hubler proving a delightful host.

Aim to Reclaim Land

First meeting of the Fact Finding Committee appointed by Secretary of Interior Work to investigate the present system of reclaiming arid lands. Left to right: Secretary Work; Dr. John A. Whitmer, former president of State University of Utah; Oscar E. Baughman, president, American Farm Bureau Federation; Hon. James Garfield, former secretary of the Interior; Hon. Clyde Dawson, attorney; Julius Barnes, president, U. S. Chamber of Commerce, a member, was not present.

Lakes-To-Sea Boosters Meet At Clarion To Decide On Way To Put Highway On The Maps

Pursuant to a call issued by President George Whitmer, of Clarion, president of the Lakes-to-the-Sea Highway Association, close to 100 good road enthusiasts gathered at Clarion yesterday and discussed ways and means of adequately advertising the scenic beauty and utility of the new highway that is rapidly approaching completion. The call was put forth by Mr. Whitmer in compliance with a request that was made following a meeting held at Phillipsburg several weeks ago. A majority of the towns along the highway were represented, there being delegates present from Clearfield, Charbensville, DuBois, Reynoldsville, Brockville, Clarion, Oil City and other communities. The meeting took place at the Clarion House, and following the enjoyment of a fine luncheon at 1 o'clock the assembly was called to order by Mr. Whitmer, who explained the purpose of the meeting and then called upon a number of people present for remarks. The consensus of opinion was that the Lakes-to-the-Sea Highway was one of the best highways in the country, and that no grander scenery could be viewed anywhere in America than right along the new highway from Erie to Tyrone. Everyone voiced the opinion that every effort should be made, so that tourists could get to know it. It was also brought out by one of the speakers that statistics resulting from the traffic census taken during the past summer showed the Lakes-to-the-Sea Highway very popular with tourists, the travel between Tyrone and Erie being fully as heavy as between Jermersville and Chambersburg on the Lincoln Highway. It was also predicted that the Lakes-to-the-Sea and the William Penn Highways would be the two thoroughfares largely used by tourists in the future when passing across Pennsylvania. The first speaker called upon by Mr. Whitmer was Walter Hatten, of DuBois. Mr. Hatten spoke briefly, declaring that it was a pleasure to see so many present and voiced his appreciation of the efforts that resulted in such a meeting. Theo Wilson, of Clarion, then read a communication from Commissioner Paul D. Wright, in which the head of the highway department stated that the department had taken up the proposition of marking the historic points along the highway. Judge Wilson pointed out that the income from motor charges in the state would be 17,000,000, providing all carrying charges for the proposed bond issue, in addition to creating a sinking fund. The judge advised the appointment of a committee to co-operate with the state department in the marking of the highway. J. D. Connolly, of the Clearfield Progress, was called upon and told some facts compiled by the state department regarding traffic, as given above. He also said that the newspapers of the territory would co-operate to the limit in advertising the highway. Prof. Green, principal of the Clarion State Normal, told of the great scenic beauty of the Lakes-to-the-Sea highway, detailing a trip he had taken by motor, and claiming that the scenery along the local route is the best he had seen anywhere. He also stated that undoubtedly the building of the Lakes-to-the-Sea Highway saved the Clarion Normal for Clarion. Dr. J. Paul Frantz, of Clearfield, is a strong advocate of the markers. He stated that while the department is marking the highway, it is not very accurate. He cited an instance where there is a marker in Clearfield designating the Susquehanna river. As a matter of fact it is a branch of the Susquehanna that flows through there. The marker is also very inconspicuous and would not be seen by the average motorist. He strongly urged a more complete and comprehensive marking of the highway. A motion was then passed that the chair be empowered to appoint committees to co-operate with the state department in marking the Lakes-to-the-Sea Highway and also to take up the proposition of having trees planted along the route. The forthcoming bond issue had been touched upon to some extent by various speakers and at this point Charles McDonald, of DuBois, moved that the Association go on record as favorable to the passage of the bond issue. The motion was unanimously adopted. This finished business before the main body and an adjournment was taken. Following the general meeting President Whitmer appointed the committees authorized, the following being named: Press Committee—N. C. Ball, Clarion Republican; J. D. Connolly, Clearfield Progress; Charles Lord, Reynoldsville Star; Dan Palmer, Brockville American; W. D. Ross, DuBois Courier. Executive Committee—L. D. McDowell, Philip Reed, Clearfield; John Reed, George W. Stokes, Reynoldsville; L. A. Leathers, Lee B. Humphreys, Brockville; H. A. Moore, J. E. Osborn, DuBois; H. B. Scott, Ward Fleming, Phillipsburg; R. L. Snyder, J. M. McLaughlin, Shippensburg; R. H. Thompson, C. B. Gardner, Osceola; John Miller, Mr. Crier, Tyrone; F. J. Dyer, John Irvin, Clearfield; S. T. McClure, J. C. Knepp, Woodland; Dr. J. Curren, John F. Rafferty; Gramplan; F. J. Moffat, Theo Wilson, Clarion. The cities of Franklin, Oil City and Cambridge Springs will be asked to name representatives on this committee. To this committee is delegated the task of working out a comprehensive plan of making the highway and will also be entrusted with working out the financial plans. In this connection it is the belief of many who have been through the mill that it will require at least \$5,000 to finance properly the project of advertising the great scenic route. Judge Wilson, of Clarion was named as the chairman of the tree planting proposition with full power of selecting his committee. The Clearfield delegation was made up of Dr. J. Paul Frantz, W. H. Wilson, A. B. Reed, J. D. Connolly, Philip Reed, L. A. McDowell, Frank Pass, E. T. J. McGarry, Curwensville was represented by F. J. Dyer, Paul Robinson, C. J. Bloom, G. L. Whitaker.

Improving Bridge Approaches. The County Commissioners have begun the work of repaving the approaches to the Market street bridge. The present iron fence will be removed and a safe barrier erected to take its place, while the concrete sidewalk approaches will be cut down to grade and put in proper shape for travel. It will be a much needed improvement.

30 Governors In Convention Call On Federal Government To Aid In Enforcement Of The Volstead Law

West Baden, Ind., Oct. 19.—Following heated debate the Governors of thirty states attending their annual conference here today signed a memorial calling on the Government to aid in enforcing the prohibition laws. In turn they promised the assistance of their states. The memorial was a compromise of an earlier resolution expressing sympathy with the Volstead act. A Ford for President sentiment has not crystallized sufficiently for voters to give serious consideration to the automobile manufacturer's proposed candidacy, according to the majority opinion of the Governors.

West Baden, Ind., Oct. 19.—Following heated debate the Governors of thirty states attending their annual conference here today signed a memorial calling on the Government to aid in enforcing the prohibition laws. In turn they promised the assistance of their states. The memorial was a compromise of an earlier resolution expressing sympathy with the Volstead act. A Ford for President sentiment has not crystallized sufficiently for voters to give serious consideration to the automobile manufacturer's proposed candidacy, according to the majority opinion of the Governors.

30 Governors In Convention Call On Federal Government To Aid In Enforcement Of The Volstead Law

West Baden, Ind., Oct. 19.—Following heated debate the Governors of thirty states attending their annual conference here today signed a memorial calling on the Government to aid in enforcing the prohibition laws. In turn they promised the assistance of their states. The memorial was a compromise of an earlier resolution expressing sympathy with the Volstead act. A Ford for President sentiment has not crystallized sufficiently for voters to give serious consideration to the automobile manufacturer's proposed candidacy, according to the majority opinion of the Governors.

4 Die In Molten Metal When Ladle Breaks In Farrel Mill

Farrel Pa., Oct. 19.—Four steel workers are dead as a result of a ladle of molten metal upsetting in the open hearth department of the Carnegie Company here last night. The steel table joining the lad Claude Felmee, aged 30 of Sharon broke and the men were enveloped in tons of molten metal.

RIDGWAY WILL BE THE ATTRACTION HERE TOMORROW

Clearfield High School football team opposes the strong Ridgway team here Saturday and reports from Ridgway indicate that the upstate eleven will enter the game in midseason form. Coach Reed has instituted an entire new line of plays with which he expects the local gridiron to overcome the visitors. Clearfield concluded a week of stiff practice with a short scrimmage Thursday night in which the varsity marched roughshod over the second team; a short signal drill will be held Friday afternoon which will be followed by a chalk talk. Coaches Reed and Steele are well pleased over the progress of the squad and state that Clearfield will enter the fray in fine shape.

Clearfield lineup for Saturday will be: Mohny and Davis, ends; Thurston and Lambert, tackles; Rafferty and McClure, guards with Mann at the midposition; Barnie, Mitchell, Morris and Wilson will commence in the backfield, while Dale, Johnston, Hughes, Witherow and Brickly will be available. All the team needs now is your support so give the fellows the chance, they are entitled to. Show your appreciation by attending the game Saturday.

POPULAR LOCAL YOUNG PEOPLE WED

John Kenneth Dufon and Miss Margaret Catherine Betts, a couple of Clearfield's most popular young people, were united in marriage at the First Presbyterian church in Philadelphia at high noon on Thursday, October 18, 1923. The ceremony was performed by the pastor, the Rev. Dr. McCall. The groom is the son of Mr. and Mrs. W. J. Dufon and a member of the Dufon Hardware Company. He is one of Clearfield's most progressive and successful young business men. His wife is the charming and highly accomplished daughter of Mrs. F. G. Betts, of South Second street, exceptionally well fitted for her new station in life. After a honeymoon tour of eastern and southern points of interest Mr. and Mrs. Dufon will be at home to their friends in their handsome new home on West Third Avenue.

10-DAY SILENCE BRINGS DIVORCE

New York, Oct. 18.—Because her husband George A. Morrison, refused to talk to her for 10 days, Mrs. Barbara Morrison has asked Vice Chancellor Griffith in the Jersey City Chancery Court to grant her a divorce. She asserts this attitude drove her from their home and charges him with constructive desertion. After returning to him once more her petition says, he resumed the old tactics of not holding conversation and her, and she left.

PRICE ERROR

In yesterday's issue in Brown's Boot Shop ad, first panel a "Men's Dress Shoe" was advertised at \$2.65. The proper price is \$3.95 a standard price with Brown's.

WAS A SORRY LOOKING SIGHT

David Gardner, a one-eyed, one-legged inmate of the County House, was a Clearfield visitor today hunting both sympathy and law. The poor old fellow had been brutally beaten, by James McGeehead at the County House. Gardner said the only thing he committed was raising a finger to get a little fresh air. He was a pitiable specimen of humanity.

MISS AUGUST SARAH MEARS FROD

Miss August Sarah Mears Frod left Tuesday for a motor trip to Philadelphia and New York.

Prismatic Celebration Of Hallow'en Will Be Stopped By The Police

Many boys and some young men are making the evening hideous and the lives of residents of various sections of the town a nightmare these evenings with their prismatic celebration or alleged celebration of hallow'en, they having been throwing decayed vegetables and dirt of all kinds against houses, windows and porches and making themselves a nuisance of a nuisance that complaints have poured in upon the Burgess police department to such an extent that Burgess Kittelberger has been forced to put four plain clothes men on duty; one for each block who have been authorized to arrest any boy who indulges in what he considers hallow'en fun every two weeks ahead of the day for such celebration. This will include the ringing of doorbells, throwing of decayed vegetables, dirt, screenings and other offensive matter against houses and on porches and the silly senseless smearing of soap over show windows and automobiles. There is no sense or reason in such actions and while Burgess Kittelberger feels like giving the boys some liberties on the regular hallow'en night, he is determined to break up the practice complained of to him by so many of our citizens. Parents should caution their children against such carryings on; here are mentioned. A word to Johnny now may save a trip to the lock-up to identify and bail him out of the law's clutches.

CIERKE AND CARRIERS MEET

The United Association of Clerks and carriers of the Clearfield Post Office met last evening at the home of H. P. Mohr to hold a social and together meeting. Talks were made by Postmaster C. E. Roseberry, Asst. Post Master Orvis Gulich, C. B. Ard and A. H. P. Mohr and others on matters relating to the improvement of the postal service for our town and bettering the conditions of its employees. The patrons of the postoffice are entitled to the best possible service that can be given and the carriers are willing and anxious to do their share and it is the aim of Postmaster Roseberry to render the best service that can be given under existing conditions. An invitation was given by Postmaster Roseberry to hold their next meeting at his residence which was accepted unanimously. The refreshments served by Mrs. Mohr were greatly enjoyed.

MISS LYDIA FIFE LEFT TODAY FOR HOME IN PHILADELPHIA AFTER SPENDING THE PAST WEEK WITH MRS. GRANT THOMPSON

Miss Lydia Fife left today for her home in Philadelphia after spending the past week with Mrs. Grant Thompson.

Rev. Gibbons of Merrill street, who has been laid up for some time with neuralgia is somewhat im- proved.

The many friends of Rev. T. J. Taggart will be sorry to learn that he has suffered a paralytic stroke.

Zev, America's Greatest Horse Is Ill. My Own Probably Will Take Place In International Race

Belmont Park, N. Y., Oct. 19.—Lumps have broken out over the body of Zev, which was to have met Papyrus in the International Stake Race tomorrow. This information was obtained today from a personal representative of Major August Belmont. "My Own," Admiral Gary T. Grayson's three year old is almost certain to go to the barriers and meet the English derby winner Saturday afternoon. Announcement to this effect is expected from the Jockey Club later in the day. The sickness of a nature not yet disclosed, which attacked Zev on the eve of the greatest international horse race in years, struck suddenly Thursday. This accounts for the fact that Zev was not shown to the public yesterday or today.

HAD A WONDERFUL TIME

For Young People's Society Presbyterian church held a social evening in the church last evening as a fitting beginning to a busy winter of church work. Games were played and a general time enjoyed until near the end of the night. Mr. Thomas who was with the Community Service organization very kindly agreed to give a short ceremony and much of the evening is filled with the wonderful refreshments served by the committee. An important entertainment added to the gaiety.

Farms.

It is because of their rigorous form that the ballade and the rondeau have established themselves by the side of the sonnet; and the lyric who has learned to love them finds in their rigidity no curb on his power of self-expression. So in the kindred art of music, the sonata and the symphony are forms, each with a law of its own, yet the composer has abundant liberty within the law.—Brunner Matthews.

Overpowering Desire for Fame. We are not this day, as we were in the days of the past, so much interested in the life of the famous. The danger of losing the life of the famous is a very real one. The danger of losing the life of the famous is a very real one. The danger of losing the life of the famous is a very real one.

Education is a great thing. A professional ball player and manager of baseball teams has in a few words pointed out a fundamental distinction between the educated and the uneducated mind. The educated man, he says, "on anyone with even a partly trained mind tries to find out the faults and correct them. The uneducated fellow usually tries to hide his." It is clear enough which of the two will go faster and farther.

Yop Tell Them. Though awkward and inconvenient, the washbasin in the middle of the kitchen floor served its purpose as simply as the porcelain and plumbed one now.

Migration of the Rat. The rat was carried from India and Persia to England in 1337, by 1750 had made its way to France and thence spread throughout Europe.

Never Before Have We Offered Such Coats Right In the Heart of the Fall Season

And it's sheer luck that we are able to offer them now. Our buyer has just returned from New York and the Coats are here too. Smart and attractive in design, rich in material and trimming, and—the thing that will interest you greatly—very, very reasonable in price.

Becoming Hats of Every Kind

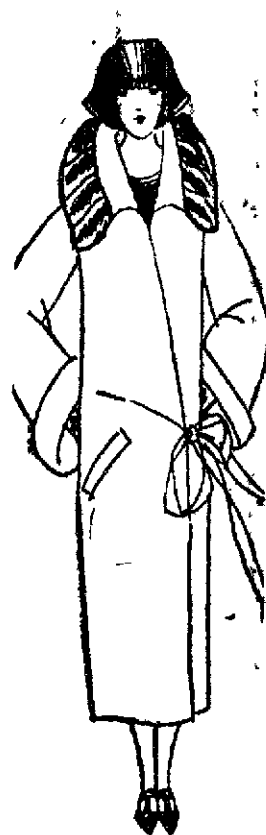

Very gallant is the cavalier plume on this rolling Hat of beautiful velvet. It gives point to the statement that says, "All feathers are a la mode. And one of the smartest Hats we're showing is the new close fitting toque." Fashioned of soft fabrics, they are light and comfortable.

CHILDREN'S, MISSES' AND JUNIORS' COATS

For the little Miss, for the older Miss and for the very, very particular Miss of eighteen or thereabouts we offer some very exceptional values.

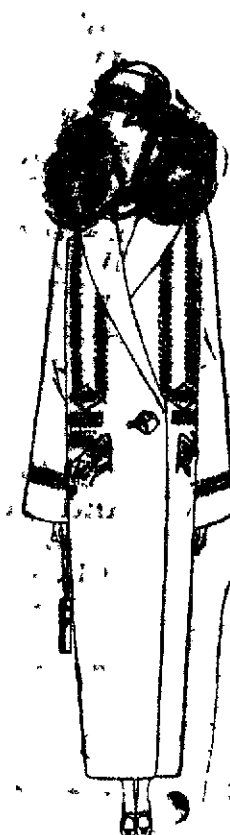

\$5.50 \$15 \$25

FOR THE SMALLER WOMEN AND MISSES

Here are some Coats you'll appreciate. Sturdy Bolivia cloth, some with self material collars and others have fur collars, while others also have fur cuffs.

\$25 \$26 \$30

WOMEN'S COATS THAT ATTRACT ANYWHERE

Any woman would just love to slip one of these rich Coats over her shoulders. Materials include Lustrous, Super-sheen and Bolivia. Some are fur trimmed and some are plain.

\$40 \$45 \$49.50

ADMIRABLE FUR TRIMMED COATS

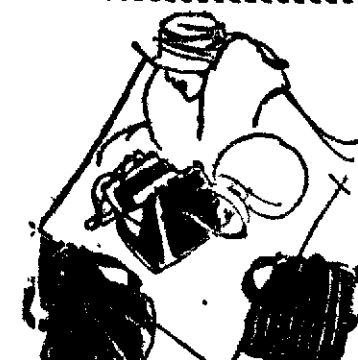

What woman does not love that snugly feeling that a fur collar and fur cuffs impart to any coat? And when it's one of these wonderful Coats, you'll surely get your money's worth.

\$58.50 to \$80

CLEVER NEW HANDBAGS

Some of plain leather and others fancily tooled. Real \$1.25 and \$1.50 values.

\$1.00

Two Hosiery Specials!

Fifty Dozen WOMEN'S SILK HOSE Colors range from the lighter shades of the hour to the ever-usable black. Really ought to sell at \$1.50 up to \$2.50.

\$1.00

All sizes, of course.

Ten Dozen WOMEN'S SILK FIBRE HOSE

Many colors for your selection and, of course, all the sizes. One of the best offers we have ever made at—

50c

EXTRA SPECIAL FOR TOMORROW ELECTRIC CURLING IRON

Regular \$2.25 value. Special for Saturday at \$1.00 each FIFTH FLOOR

ODDS AND ENDS AND THINGS

By J. D. C.

The fall season for forest fires is at hand, the woods in every direction, thanks to the long, long dry spell, are a veritable tinder box and it therefore behooves every body who visits the woods on any pretext or for any purpose to be very careful of fire, and especially cigar and cigarette smokers. In a trip to Clarion yesterday we saw no less than three forest fires raging fiercely. Ordinarily fall fires are not so destructive as those in the springtime, but this year on account of the long drouth fire will be doubly destructive for this time of the year. When in the woods do not smoke, but if you are a slave to tobacco and can't or don't want to curb your appetite or "vice" be careful to see that you do not throw away a lighted cigar or cigarette butt.

President John M. Thomas of the Pennsylvania State College, made public a letter that he received from Rear Admiral Henry B. Wilson, superintendent of the Naval Academy, which Doctor Thomas proclaims to be the finest bit of tribute on record to Penn State's clean playing and fine sportsmanship. The Penn State "prexy" added that he was more proud of such a letter than of any number of victories on the gridiron. The letter is as follows:

"One of the things that has impressed me about our athletics at the Naval Academy is the wide-spread feeling in the regiment of good will toward Penn State, this in spite of the fact that on most of our schedules the Penn State name means the hardest game. During my time at the academy I have wondered about this, and the game in Washington on November 3 has cemented the belief that I have found the answer.

"The midshipmen like Penn State, because, not only will the result of the game be in doubt until it is over, but also they know that Penn State will fight hard and will fight clean in all forms of sport in which the two colleges meet. That seems to be Penn State's reputation—that they always fight but they fight clean. This was exemplified in the recent game, when the two lines played each other to a virtual standstill, which meant the roughest sort of going, and yet the contest left only the finest sort of feeling of good sportsmanship.

"I hope that in the years to come the relations between these two colleges may always continue as friendly as they are now."

Word has been received from Naval athletic officials that a Penn State-Navy game at State College next fall is practically assured.

If They're Good Things. The man who is willing to talk things as they come frequently finds that someone else has headed them off.—Boston Transcript.

Made Gardener Barber.

A barber in a certain English regiment had a great contempt for infantry of any kind, and was also somewhat impatient. A sergeant explained to him that he could get no man to undertake the duty of barber to the company. "Is there no gardener in the company?" asked the major. "See if you can find one, and send him to me." The man was duly sent but on receiving orders to act as barber, ventured to expostulate. "Why?" cried the major. "If you can't cut grass you can cut hair! Go on and do it!"

French Revolutionary Calendar.

The convention of the French revolution abolished the ordinary calendar and established a new one, beginning about the autumnal equinox, with descriptive names for the months. The present time of year was under that arrangement the last month of the year. It extended from August 19 to September 18 and was called Fructidor (fruit).

The Future.

The future of poetry is immense, because in poetry where it is worthy of its high destinies, our race, as time goes on, will find an ever surer stay.—Matthew Arnold.

Dangerous Liquids.

Gasoline, ether and benzine could not be kept on shelves in a cabinet in the house, the national board of fire underwriters says in a recent article. It is exceedingly dangerous, as either gasoline or benzine gives off at ordinary temperature inflammable vapor. Through these vapors, a light at a distance may ignite the liquid. If there is a small leak in the container in which any of the liquids are kept, sufficient vapor may form to cause a violent explosion. With ether the danger is even greater than with gasoline or benzine.

Literary Realism.

Robert Brooke, exposing the folly of those complaining that the Elizabethan drama is coarse, remarked: "Their wall that its realism is mingled with indecency is more than three repeated. True literary realism, they think, is a fearless reproduction of what real living men say when there is a clergyman in the room."—Boston Herald.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 percent common kerosene (coal oil).

The inventor, S. E. Johnson, 642 N. Broad St., Philadelphia, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

A Bit Late.

One can but sympathize with the commercial traveler, who, not knowing that the railwaymen were on strike, spent two days on the platform, at the end of which time he became somewhat irritated and remarked to a friend, "She's a bit late, isn't she, Herbert?"—London Punch.

Every Drop Of Our Is Absolutely Pure

There isn't a drop of milk goes out of this plant to your table or to your favorite fountain but what goes thru the pasteurization process. This pasteurization process does away with any possibility of disease germs being in the milk and it further makes the milk as pure as the driven snow.

Come into the plant some time and see the milk go thru the process and then you will understand just what we mean when we say that you are protected in every way when you use our milk.

Give the kiddies plenty of our pasteurized milk.

TERMS OF SUBSCRIPTION BY MAIL

One Year, \$4.00 Three Months, \$1.50
Six Months, \$2.00 One Month, \$0.50

By check or money order payable to Carrier.
Entered as Second Class Matter, October 19, 1923, at Clearfield, Pa., as second class mail matter.

The Following is From The Altoona Tribune:
WHY THE FARMER RAGES

It costs \$1.20 to \$2.80 to produce a ton of bituminous coal, and \$1.23 to produce a bushel of wheat. The coal sells at the mines for about \$5.00 a ton. The wheat sells at the farms for about 85 cents a bushel.

It is just such stuff as this that explains why the average man, not conversant with general business, sees red. In like manner the man who is informed sees red at such a parading of misstatement.

The man who wrote that statement could buy the entire coal output of this country today at a figure one-half of what he says is the price at the mine and, if he does not know that, he should.

Samuel M. Vaulain, president of the Baldwin Locomotive Works, is under contract with a physician to keep him in physically perfect condition. Mr. Vaulain said he went to the physician and said:

"I've been sick, and I haven't liked it. I don't want it to happen again, if it's possible to prevent it. Is it possible?"

"I believe it is," the physician replied.

"Very well, then," Mr. Vaulain said, "I'll make a contract with you. Keep me well for ten years and I'll pay you a fat sum every year, the amount to be increased each year on the assumption that the older I grow the more difficult it will be for you to keep me well."

Entirely in Doctor's Hands.

"On my side I will agree to do everything as you wish, following any diet you may prescribe, work as many hours as you say, refrain from work when you advise—I'll put myself entirely in your hands for ten years. But if I fall sick you must pay a penalty. I shall make deductions from your annual retainer, according to the length of time I am sick. Will you enter into such an agreement with me?"

"A real contract?" he inquired.

"A real contract," Mr. Vaulain replied, "in legal form binding and actionable at law."

He thought for a moment. Then he nodded his acceptance.

"Since the inception of this contract," Mr. Vaulain said, "I have kept my part of it and my doctor has kept his. Except once or twice. I have been examined not less than every two weeks and have guided myself entirely by the doctor's instructions. In that time I have not lost a day from business nor have I been ill in any way. I am heavier, stronger and more active than I was five years ago."

Urges Others to Follow System.

Being under a doctor's care has not been a hardship, according to Mr. Vaulain. He has been warned against excess with regard to certain foods, but he has not been placed on a diet, nor has he been forbidden to smoke, nor must he retire at any unusually early hour.

Mr. Vaulain thinks the family physician should be consulted before illness, not afterward.

"I can imagine no happier arrangement," he said, "than one that would place, say twenty-five or thirty families under the care of a physician to whom each of them would pay annual fee in return for systematic and regular medical attention. The physicians would visit each family once a month. He would examine its members, prescribe for them, if necessary, and advise them how to preserve their health."

"What I am doing may be unusual," he said, "but I consider it sensible and logical. It is nothing more than utilizing in the care of my body the same principles that I have been using for years in the care of my business."

Progress Editorial For Women

YOUR ATTENTION—HOW

DOES IT WORK?

By FLORENCE DAVIES

The arch of the bridge framed a beautiful autumn picture as the little party in the touring car drove through. Scarlet and bronze leaves, graceful boughs swaying a bit in the sunshine, green grass below and blue sky above made the landscape one to remember.

"They let all my pepper freeze. If I'd been there I'd have covered them. Now I'll have to go without pepper hash all winter or pay a big price at the store," one of the two women on the back seat was lamenting.

"See, you can get a glimpse of the lake from here," her sister cried. The woman from the little inland town turned her head a fraction of an inch. "O yes. Say, did you see any corn last year? I shan't be home in time to do any, I'm afraid of tomatoes."

"This park was all one great estate, 300 acres, and was given to the city by the owner," commented the other, as they turned into the boulevard edging the lake. "Those willows are so beautiful. See."

"You haven't found out yet about the train. And there's my trunk. What? O yes, 300 acres is a big park isn't it. I guess you better telephone when we get back, don't you think?"

"Of course, promised the hostess, sister. She said no more about the beauty all around them as the car sped on. What was the use, when the eyes of Ellen's mind were turned inward?

Yet she knew that the drive in the sweet autumn air past the beautiful homes and gardens lining the boulevard, was a real treat to the stay-at-home, small town Ellen. Perhaps, somehow, the charm of it all which she herself felt so keenly, was registering on the "subconscious ninth" which makes up such a large portion of our minds.

The pit of it was that Ellen had centered her attention on her marketing and canning, her vegetable garden, the piled mending basket in the old sitting room and the cook's board.

Third Street—Corner Locust.

BOILER

"HEAT-PEP"

? ? ? ?

in the kitchen cupboard so long, that on this first visit to the big city there was scarcely any sight or sound vivid enough to hold it for more than a few seconds.

It gets dull and bear-eyed, that same little faculty of attention. It becomes flighty and dodges off at the instant when it should be alert and attending to business. Let's polish it up and tell it to look alive, like a quick-moving little bell hop in bright buttons, instead of a decrepit messenger "boy" with shuffling feet and ragged gray whiskers. We can do it.

meaning of Natal. The British colony of Natal is so named, because the territory was first discovered on Christmas day—the natal or birthday of our Savior—in the year 1407. The discoverer was Vasco de Gama, the Portuguese navigator who had been dispatched by Manuel, king of Portugal, to discover a route to India via the Cape of Good Hope. It was just after the finding of the New world had enriched Spain, and all the maritime nations were eagerly anxious to make similar discoveries.

Try a Progress "Want Ad."

Firm, Plump Flesh!

MANY are the eyes that are turned to gaze with keen admiration on the well developed, healthy girl no matter where she may be on the rapidly moving thoroughfare or gliding gracefully over the dance floor.

All eyes turn because we all appreciate the girl with the figure so firm and plump—the girl with radiantly red cheeks, cheeks that carry a touch of roses from nature's own garden—the girl with the sparkling eyes, keen and sharp—the girl with buoyancy and the swing of youth.

Not necessarily an outdoor girl. Just a girl with ever increasing blood cells. Just a girl filled with the vim and vigor of youth. S. S. S. since 1875, has stood for increased blood cells. S. S. S. means restored strength—rekindled vitality—added energy. Take S. S. S. and watch the bloom of youth return to your cheeks. Watch that flabby, flaccid flesh fade away before flesh that is firm and plump. Red blood cells will do it and S. S. S. will build them. It contains only pure vegetable ingredients. S. S. S. sold at all good drug stores. The large bottle is more economical.

S.S.S. Makes You Feel
The Large Bottle is More Economical

(A) PUBLIC NOTICES

LODGE NOTICES

The American Legion Auxiliary will hold a Bridge and Five Hundred game at the Legion Room, on Thursday evening, October 18th, at eight o'clock. Everyone welcome. Admission 50 cents. 10-16-4-ch.

LOST

Between Market St. School and Ward's Drug Store, Black White Glenglass dress with all-emb trim. Return to Mrs. Leonard Pollock Apt. 2, and receive reward 10-19-23.

Unusual Preservative.
The leaves of the fern plant, which are almost everywhere, are excellent preservatives for packing food, and even meat. Potatoes packed in fern leaves are fresh in the market as when they were first dug in the water.

Pecked Flashlight.
The best body in a kitchen is a small pecked flashlight kept in a corner of the kitchen for use when it is necessary to go into the dark cellar to get something in the bottom of the cupboard or in any of the other dark corners which are in every house. It is a small candle and is not lighted by a match and the light can be turned on and off at will.

Regular Prize Winner.
My wife and I were thoroughbred breeders by a scientific distinction. I became a regular prize winner at every county fair to which I went. I only mention this because I am now a regular prize winner at the "Carnegie" county fair and I am now a regular prize winner at the "Carnegie" county fair and I am now a regular prize winner at the "Carnegie" county fair.

What's a Feller to Do?
It's a funny thing," observed the philosopher, "my friend Jones has been married for a year and he can't get a wife, and I can't afford a wife because I am married."

Could See Improvement.
Having had a severe illness I was looking thin and tired, but during my recovery I grew fat and rosy. On my return home I met a small girl from the same home who looked at me in an admiring manner and then said: "My father says you must have had a child."

RULES FOR FLAG OBSERVANCE

National Conference Codifies Regulations for Display of Respect to Colors.

Patriots of the United States at last may pay the flag of the nation full respect, without fear of violation of some phase of flag etiquette, due to the outcome of a national conference called for the purpose of codifying rules for flag observance.

Noting the dissimilitude of practices toward the flag, and the inability to make military observance coincide with that for civilians, the American Legion set out to settle all such questions and succeeded in the purpose by calling together representatives of nearly seventy organizations of various character for the promulgation of certain rules for future flag usage.

The conference was held at Continental hall in Washington. Gathered there were representatives of the army and navy, government agencies, veterans' organizations, patriotic societies, associations for welfare and organized movements for national development. These delegates represented 8,000,000 Americans. The conference was opened by an address by President Harding.

Garland W. Powell, director of the Americanism commission of the Legion, presided and named a committee which formulated a definite code, later to be adopted by the conference.

In addition to settling on the code for flag usage, plans for education in proper flag observance were formed and a program of contemplated legislation outlined, which would fix by statute certain rules for display of the national emblem. A point which will be stressed along this line will be the setting aside of June 14 as a day of appropriate ceremony and respect to the flag in every state. Another suggested measure calls for the flying of the flag from every main administrative building and at every polling place in the nation. Schools would fly the flag during school hours. If a recommendation of the committee is followed, while general laws relating to punitive measures for misuse of the flag also are urged.

The code suggested by the committee contains many suggestions for usage of the emblem, with certain "don'ts" as violations.

The flag should be displayed from sunrise to sunset, only between such hours as designated by proper authority on national and state holidays, or on historic or special occasions. The flag should always be hoisted briskly and lowered slowly and ceremoniously. When carried in procession with another flag the place of the flag of the United States is on the right, that is, the flag's own right or when there is a line of other flags, the United States flag should be in front of the center of the line.

If displayed with another flag against a wall from crossed staffs the United States flag should be on the right and its staff in front of the other flag. When flags are grouped or displayed from staffs the United States flag should be in the center or at the highest point of the group. The United States flag should fly from the peak of a halyard on which flags of states, cities or societies are flown. If such flags are hoisted the United States flag should always be raised first. No flag or emblem should be placed above or to the right of the emblem. In flying flags of two or more nations the flags should be flown from separate staffs of the same height and the flags of equal size.

A common misuse of the flag takes place when the staff projects horizontally or at an angle from window sills, balconies or front of buildings. The union of the flag should go clear to the head of the staff unless at half staff. If the emblem is displayed other than from a staff it should be hung flat. If displayed either horizontally or vertically against a wall, the union should be uppermost and to the flag's right, that is, to the observer's left. If hung from the middle of a street, as between buildings, the union should be to the north in an east and west street or to the east in a north and south street.

When the flag is used on a speaker's platform it should be displayed above and behind the speaker. It should never be used to cover the speaker's desk or to drape over the front of the platform. If used in unveiling a monument the flag should not be allowed to fall to the ground, but should be borne aloft to wave out. If used to cover a casket the flag should be placed so that the union is at the head and over the left shoulder. The flag should not be lowered into the grave nor allowed to touch the ground. The casket should be carried feet first.

If the condition of the flag is such that it is no longer fit for display it should be destroyed as a whole by burning or similar method.

The emblem should never be used as drapery, bunting being preferred for this purpose. It should never be used as a ceiling, part of a costume or uniform, embroidered on handkerchiefs or pillows, printed on envelopes, paper napkins or boxes.

Cute, Aren't They?

Master Edgar Prochnik, 3 (left), and his cute little sister Patricia, 2, are the children of Mr. and Mrs. Edgar C. Prochnik, charge d'affaires of the Austrian legation in Washington, D. C. Their faces are interesting.

Granada in Moonlight

Think for some moments of the vast achievement of the Moors in Spain in the long ago. Have you in your mind Granada and the Alhambra there? If so, let your spirit be awakened with the story of a lost civilization, compared to which many others of its kind seem mean? Here is a glimpse of the place of towering majesty, in the Alhambra in the silvery light of night is to some minds more thrilling, more ghost-stirring, than the Colosseum of Rome. Henry Leach writes in Chambers' Journal.

Why Deeds Are "Cancelled"

The Latin word "cancelus" means a lattice, and our word cancel means to make a lattice by drawing cross lines. Law deeds are canceled by drawing lines across them, and so "cancel" has come to hold its modern meaning, to cross out, efface.

Healthy Children, Happy and Full of Joyful Life

Do this for the kiddies if you want to keep their tender little bowels open and stop them from getting fretful and feverish.

Get an inexpensive package of good-old-fashioned vegetable

Celery King

at your druggist's today! Brew a cup of delicious tea and give to the children as directed.

You'll like it yourself, too, for it not only purifies the blood, but keeps stomach, liver and bowels in first-class shape.

Drink a cup every other night for three weeks your whole being will be filled with the joy of living. It's simply splendid.

Earnest Money.
Any sum of money paid on account to show the good faith of the buyer is known as an earnest, and is a payment recognized by English law. Typical of this is the king's shilling formerly given to soldiers on enlistment, and the similar coin given to servants in Scotland.

Better When Cut Up.
In California the farms originally were the old "Spanish land grants," usually of enormous extent. In a fashion these great holdings—validated by the American government when California came into the Union—have remained as ranches. Today the people are learning that both for taxation and production, small farms are better.

MORE GENERAL USE OF MARGARINE DESIRABLE

Whenever the subject of margarine is mentioned at one of those cozy afternoon parties at which congenial women discuss among themselves those things in which womanhood is interested a lack of correct information and divergence of opinion is at once in evidence.

One woman will pronounce with the utter finality that comes with many years of housekeeping that margarine is most satisfactory both on the table and for cooking. Another will report a preference for margarine exclusively for cooking, while another will favor it only for the table. A fourth will ask, "Who is it that uses margarine?" And so it goes.

The truth is that if more margarine was used it would be better for all concerned; for margarine is a food that carries with it its own guarantee of wholesomeness, is decidedly economical, and in addition can be used satisfactorily on the table and for every shortening purpose.

In cooking and when spread on hot toast or hot breads the modern margarine gives an excellent account of itself, and these are the tests that are supposed to try the quality of margarine to the utmost. When placed in a hot spider, margarine melts smoothly and without spatter; when spread on hot toast its color, appearance and taste are all that could be desired.

The origin of the diverse opinions about margarine lies in the fact that during the war many manufacturers of margarine sprang up who had little or no previous experience either with the making or marketing of margarine; with results that anyone could anticipate.

This situation has since corrected itself by a natural process of elimination. Today the industry is on a fundamentally stable basis of high quality production. The brand that has the largest sale and is most popular with women is Jellco GOOD LUCK Margarine.

If you have not personally tried Jellco GOOD LUCK in your home and discerned for yourself how advantageous it is for you to use, we suggest that you create your own beauty and give GOOD LUCK a personal trial. Advertisement.

How to tell for sure —what oil your car needs

No. 12 in the series

Perhaps you own a Nash

If you don't own a Nash, cut this out and hand it to a friend who does.

In determining the correct oil for the lubrication of Nash engines we have to consider first the operating temperatures under variable service conditions. The engines of both the four and six cylinder Nash models are of the valve-in-head, moderately high speed type and employ pump-circulated water cooling systems. The bore and stroke of the Nash Four are 3 1/4 x 5 1/2; of the Nash Six 3 1/4 x 5 1/2. These features of design, and use in passenger car service are indicative of moderate operating temperatures.

Oil circulation is by means of a force feed and splash lubricating system in the models of 1921, 1922 and 1923, the oil being forced under pressure to the main bearings. The Nash Six models of 1920, 1921 and prior years were of somewhat different design from a lubrication standpoint. Force feed to the main bearings was not employed, the lubricating system being of the splash circulating type.

With these systems reliance is placed on the thorough atomization of the oil under the splash action of the connecting rod dipper to ensure distribution of the oil to bearings not fed under pressure and to the pistons, cylinders, cams and other rotating and reciprocating parts of the engine. The oil used must lend itself to this thorough atomization and be of the highest quality and of the proper body and character to assure correct lubrication and prevent undue wear and depreciation.

To minimize or prevent "pinging" or "spark knock" which results from the

"decarbonization" of pistons, it is important that your Nash Car be operated so as to prevent the formation of carbon deposit which aggravates this trouble. The correct oil must not only meet the lubrication requirements of the engine under all variable operating conditions both summer and winter, but must leave the minimum of carbon in deposit. This among other vital facts is carefully considered in determining the correct oil for your Nash engine.

Gargyle Mobiloil Arctic is of proper body to meet the temperature and distribution requirements of Nash engines used on all 1921, 1922 and 1923 models and it is of the proper character to minimize carbon formation and to seal the piston rings under the high piston speeds encountered. It is recommended for both summer and winter use.

Due to differences in piston design and in the lubricating system, Gargyle Mobiloil Arctic is recommended for summer lubrication of the 1920, 1921 and earlier models of the Nash Six.

To summarize: On all Nash models of 1921, 1922 and 1923, Gargyle Mobiloil Arctic should be used summer and winter; on the Nash Six Cars of 1920, 1921 and earlier models is Gargyle Mobiloil Arctic should be used in summer and Gargyle Mobiloil Arctic in winter for engine lubrication. The winter recommendation applies only to climates where freezing temperatures may be experienced.

RIGHT BETTER TRUE

By Condo

"Catsup"
Catsup is a word derived from the name of an East Indian pickle. The term was first applied to the boiled spiced juice from salted mushrooms, but is now freely used for various sauces which consist of the pulp—boiled, strained and seasoned—with tomatoes, green walnuts, etc.

Dahlia Really Mexican.
There seems to be an impression that the dahlia belongs to be cultivated in Europe and America were since flowered forms. This is a mistake. The very first species to be described, a figured, dahlia pinnata, was a copy with a duplex or double head. It was propagated in the royal gardens of Madrid from roots of Mexican origin and was named by the botanist Carlos Linnaeus in 1759 in honor of And. Dahl, a distinguished pupil of L.

Way to Head the Cook.
Knicker—How in the name of the seven wonders of the world do you manage to hang on so long to the same cook? Boeker—That's a golf bend, and my wife and she play every day to see whose day off it is.—Houston Post.

Concentrate to Best Worry.
"If people could only concentrate on their work as wholeheartedly as they concentrate on their worries success would be assured," said Mr. Eustace Miles in an address on "Concentration."—Fall Mail and Globe.

Third Street—Corner Locust.

Mummy Cloth.
The extraordinary durability of the ancient Egyptian mummy cloth is believed to be due to the fact that it was fastened with a vegetable glue derived from the African locust bean tree.

Woman's Feet.
According to one authority, a woman's feet should be to her body in the proportion of 14 to 100—that is, as nearly as possible, one-seventh of the total.

Icebergs.
The icebergs of the two hemispheres are entirely different in shape. The arctic bergs are irregular in form, with lofty pinnacles and glittering domes, while the antarctic ones are far more uniform.

Old, Silly Superstition.
In medieval times children whose mothers died at their birth, were known as fatal children, and an idea prevailed that they were destined to fame but also to early death.

Nothing is Secret.
For nothing is secret, that shall not be made manifest; neither anything hid, that shall not be known and come abroad.—St. Luke 8:17.

Jud Trunking.
Jud Trunking says the reason he's asking a monopoly is the way a toll-gate keeper always lets the road run down when he has it all his own way.

Where Japan Leads.
The Women's Patriotic society of Japan is probably the largest organization of its kind in the world. It has more than 1,000,000 members.
